WORK EXPERIENCE

Lead Web Developer Software Alternatives

02/2013 - 03/2021

Sioux Falls, SD

Achievements/Tasks

- Developed enterprise websites and REST APIs. Including ecommerce, ordering systems, payment processing, shipping, rentals, exchanges, quote requests, invoice approval, financial analytics, document management, time tracking, and advanced configurators.
- Modernized the web team with Git, command-line DevOps, Vue.js, Express APIs, and functional programming patterns.
- Led the web team for 3 years. Managed Git repositories, code reviews, Linux, AWS EC2 and IBM i servers.
- Worked closely with clients & implemented business requirements. Worked hand-in-hand with specialists.

PROJECTS

eComEdge E-Commerce Platform

Deployed to Precision Reloading, T&R Electric, Ag Spray Equipment & Precision Fishing. My work on the websites included product searching & filtering, payment processing, order processing, shipping, taxes, coupons, customer relationship management, inventory, and more.

ShipStation and Warehouse ERP integrations

Deployed to Mitchell Manufacturing and Precision Reloading. Improved shipping logistics by integrating ShipStation into the Express business processes API I developed. Fulfilled client requests to further automate their warehouses and Precision's ecommerce site.

Paige's Music Instrument Rental & Exchanges

Created an online rentals process for a business which delivers instruments & supplies to hundreds of schools each week. Developed and integrated this website into our enterprise software suite. I was later asked to develop an exchange program for the instruments and delivered the website in a timely manner.

T&R Electric Job Applications & Quote Management

Asked to improve the hiring process for the largest supplier of remanufactured transformers in the US. Developed a six-section, single page app with Vue.js and Node. Built an advanced configurator to manage quotes submitted via the ecommerce quote site I built.

Other Projects & Integrations

I have created & contributed to many other APIs and websites including: document management for 5 companies, accounts payable for Fimco Industries, automated bank transfers for 3 companies, financial dashboard for 2 companies, my Vue.js portfolio @ www.dukleth.com, employee timeclock for Formatop Company, Luverne Public Schools main site and 3 supplementary sites, e-commerce widgets for David's Bridal and Rexcraft, main site for O'connor Heating & Cooling, and several other hobby websites.
