Jason Dukleth
Senior Web Developer

Fullstack JavaScript, Node & PHP developer with 10 years of industry experience. I have led projects, mentored junior developers, and programmed eCommerce platforms and business critical applications. I pride myself on being teamwork-oriented, an avid learner and a problem solver who takes initiative.

WORK EXPERIENCE

Senior Fullstack Developer
JDS Industries

2022 - 2024

Achievements/Tasks

- Ran the web team behind a large-volume eCommerce site
- Reworked the entire eCommerce site to improve user experience, speed, reliability and modernization. Eliminated 400k lines of code and dozens of bugs.
- Developed product management and other enterprise tools tailored to business requirements.
- Overhauled the credit card vendor, taxes software, product details, product images and many other business systems
- Automated tasks critical to both business and software operations

Senior Fullstack Developer
Software Alternatives

2013 - 2021   *Sioux Falls, SD*

Achievements/Tasks

- Developed enterprise eCommerce and APIs. Including ordering systems, payment processing, shipping, rentals, exchanges, quote requests, invoice approval, financial analytics, document management, configurators
- Modernized the web team with Git, command-line DevOps, Vue.js, Express APIs, and functional programming patterns.
- Managed APIs, websites, Git repositories, code reviews, Linux, AWS EC2 and IBM i servers.

PROJECTS

E-Commerce Platforms
Deployed to JDS Industies, Precision Reloading, T&R Electric, Ag Spray Equipment & Precision Fishing. My work on the websites included product searching & filtering, payment processing, order processing, shipping, taxes, coupons, customer relationship management, inventory, and more.

Paige's Music Instrument Rental & Exchanges
Created an online rentals process for a business which delivers instruments & supplies to hundreds of schools each week. Developed and integrated this website into our enterprise software suite. I was later asked to develop an exchange program for the instruments and delivered the website in a timely manner.

Full Warehouse ERP integration
Deployed to Mitchell Manufacturing and Precision Reloading. Improved shipping logistics by integrating ShipStation into the in-house Enterprise Resource Planning software suite.

T&R Electric Job Applications & Quote Management
Built an advanced configurator to manage quotes submitted via the ecommerce quote site I also built. Improved the hiring process for the largest supplier of remanufactured transformers in the US.
